

Calculate the result for the following subtraction.

$21 - 5 = \square$

$27 - 10 = \square$

$17 - 9 = \square$

$6 + 7 = \square$

$19 - 13 = \square$

$30 - 20 = \square$

$27 - 12 = \square$

$3 + 4 = \square$

$25 - 11 = \square$

$20 - 1 = \square$

$15 + 13 = \square$

$4 + 2 = \square$

$20 - 17 = \square$

$25 - 16 = \square$

$7 + 12 = \square$

$8 + 5 = \square$

$19 + 11 = \square$

$38 - 18 = \square$

$32 - 14 = \square$

$3 - 2 = \square$
